Education

University of Mumbai

Bachelor of Science in Computer Science

CGPA: 8.48

Mumbai, India

2023 – 2026

Technical Skills

Languages: Python, JavaScript, Java, SQL, PHP

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, HTML, CSS

Backend: Django, Spring Boot, REST APIs

Databases: MySQL, MongoDB

Cloud & DevOps: AWS EC2, Git, GitHub, DNS Management

AI & Automation: LLM Integration, Prompt Engineering, Generative AI, Workflow Automation

Concepts: OOP, API Design, Authentication, SDLC, Agile Methodology

Experience

Full Stack Development

Jan 2025 – April 2026

Bling Square Events

Mumbai, India

- Developed and deployed **live web applications**, including recruitment and internal management systems.
- Designed and implemented **responsive, user-friendly UI**, improving usability across platforms.
- Built and integrated **RESTful APIs** for seamless frontend-backend communication.
- Managed **production deployment on AWS EC2 and Linux-based servers**, ensuring application availability and performance.
- Implemented **secure authentication and role-based access control**, enhancing data security.
- Built and automated **business workflows** (hiring, leave management), reducing manual effort by **75%**.
- Performed **testing, debugging, and issue resolution** across full-stack layers.
- Collaborated with **clients and cross-functional teams** to deliver iterative improvements.

Projects

LLM-Based Daily Task Management System

Java, Spring Boot, MySQL, React.js, LLM API

- Developed and deployed an **AI-powered system** enabling workflow automation through **natural language prompts**.
- Built an **LLM-based chatbot** to automate tasks such as leave applications and task management.
- Automated routine operations, improving **efficiency and productivity**.
- Designed **role-based dashboards** for HR and employees.
- Integrated backend logic to convert **user prompts into system actions**.

Hiring Portal (Live Project)

Python, Django, PHP, MySQL | hire.blingsquare.in

- Developed and deployed a live hiring platform centralizing **80% of candidate data**.
- Built separate **candidate and recruiter dashboards** with real-time tracking.
- Implemented **email verification, form validation, and secure authentication**.
- Developed detailed **applicant overview system** with resume access.
- Designed a **multi-stage interview workflow** (Screening, Test, Interview, HR) deployed on **AWS EC2**.

Certifications

- Software Engineering Job Simulation** – JPMorgan Chase & Co. (Forage)
- Gemini for Google Workspace** – Google Cloud & Simplilearn
- Artificial Intelligence Certification** – IBM

Leadership & Activities

- Participated in **NSS and Rotaract Club**, contributing to community initiatives.
- Developed leadership, teamwork, and communication skills through collaborative activities.
